

- advantages/disadvantages, 18
- basic strength calculations, 34
- definition, 17
- labelling, 23, 25-6, 29-30, 32-3
- millimolar calculations, 39-40
- packaging, 23, 25, 29, 32
- parts calculations, 38
- percentage calculations, 36
- preparation, 18-19
 - examples, 19-33
 - magistral formulation from doctor's prescription, 30-3
- self-assessment questions, 34-42
 - answers, 167-72
- tailored strength calculations, 35
- spatula, 93, 94, 109, 127
 - vulcanite, 98, 119
- spermicidal gels, 108
- standards for extemporaneous dispensing, 15-16
- stirring devices, 19
- storage, 3
- Strong Coal Tar Solution BP, 113, 114
- Sulphur BP, 118
- sun-blocking pastes, 108
- suppositories, 135-49
 - advantages/disadvantages, 136
 - definition, 135
 - labelling, 4, 8, 140-1, 146-7
 - packaging, 140, 146
 - preparation, 137-8
 - examples, 138-41, 144-7
 - mould calibration, 136, 137
 - overage production, 136, 137, 139, 142
 - using fatty bases, 137-8
 - self-assessment questions, 147-9
 - answers, 191-6
- suspending agents, 44, 53, 58
 - emulsions, 67
- suspensions, 43-63
 - advantages/disadvantages, 44
 - definition, 43
 - diffusible, 43
 - preparation, 44-5
 - examples, 46-60
 - magistral formulation from hospital formula, 57-60
 - indiffusible, 44
 - preparation, 45-6
 - labelling, 4, 50, 53-4, 56-7, 59-60
 - packaging, 50, 53, 56, 58
 - self-assessment questions, 61-3
 - answers, 172-8
 - syringe measurements, 52
- tablet bottles, 10
- tablets, packaging, 13
- tared containers, 12-13
- Theobroma Oil BP, 136
- tile, glass, 93, 94, 109
- Tragacanth BP, 44, 53, 58
- trituration, 85, 91-2, 116
- unit dose powders, 151
 - advantages/disadvantages, 152
 - labelling, 161-2
 - packaging, 14, 161
 - preparation, 152-3
 - double (serial) dilution, 160
 - example, 159-62
 - overage production, 159
- unofficial products, 57-60, 117-23
 - labelling, 6, 7, 32, 59-60, 73-4, 78-9, 82-3, 119-20, 122-3
- Vanillin BP, 85
- vegetable oils, 109
- ventilation, 16
- volatile (aromatic) oils, emulsions
 - preparation, 68
- volatile materials, 52, 53
 - emulsions, 78
 - incorporation into cream base, 94
 - incorporation into ointment, 110, 114
 - ointments/pastes, 119, 127
- vulcanite spatula, 98, 119
- warning labels, 8, 60
- water bath, 92, 93
